# DVIA Final project proposal

Name: _____

Please complete 2 of these templates - 1 for each of the datasets you are considering working with for your final project. This exercise will help you frame your intentions and explorations for the final project. Upload these to the Final Project google drive folder before class on Monday, Nov 16, 2020.
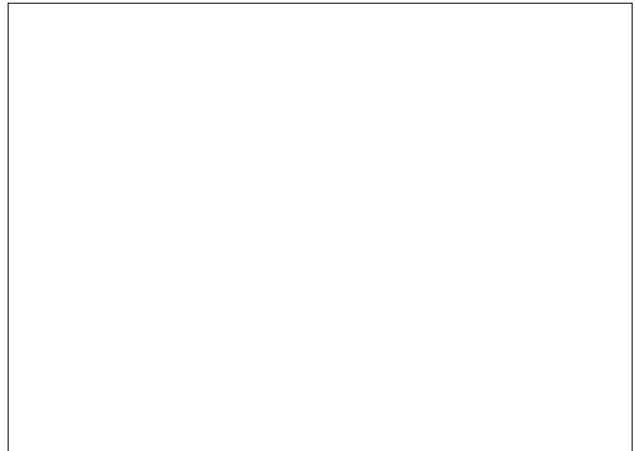

Part 1. Describe the dataset

- What kind of variables are present in this dataset (please highlight types of data we've reviewed in class)
- What variables do you intend to focus on? Create 2 early sketches exploring which variables you will use and what form your visualizations might take

Variables and types (quantitative, qualitative, geographic, temporal):

Sketch 1

Sketch 1

Part 2. Define your target audience

- Who is the target audience?
- What questions might this visualization answer?
- How do you intend for your audience to engage with this visualization? (feel free to include a sketch)
